

Coordinador PD Ciencias de la Tierra

José Benavente Herrera. Coordinator of the Doctorate Program in Earth Sciences since September 2015, he is Professor of External Geodynamics (Hydrogeology and Hydrochemistry) in the Department of Geodynamics, and head of the Hydrogeology & Water Resources Section of the Water Research Institute of the UGR. He is also head of the Group RNM-126 (“Water Resources”) of the Andalusian Research Plan. He has been Coordinator of the Master “Geology Applied to the Civil Work and Water Resources” in the UGR. He has coordinated an EU Project, and acted as main researcher and participant in many Spanish research, educational and international cooperation projects. Since November 2015, he is member of the Direction Board of the Spanish Chapter of the International Association of Hydrogeologists.
