PLEASE NOTE:

The "International Doctorate" Mention is defined in Article 15 of Royal Decree 99/2011. The specific conditions for the award of the "International Doctorate" Mention by the University of Granada are as follows:

You must obtain authorisation from the Academic Committee before the start of the stay: complete this application form to apply for the stay. The form must be submitted in PDF format through the "Solicitudes" (Applications) option of the ACADEMIC MONITORING PORTAL FOR DOCTORAL STUDENTS. The type of application is DTI. Please attach the following documents to your application: an **invitation letter** from the institution where the mobility will take place and a URL to the Research Curriculum Vitae* (ORCID, Scopus, Researchgate, ResearcherID, Google académico, otro) of **your tutor or the research group**.

Requirements of the receiving institution: your stay will only be considered for the award of the "International Doctorate" Mention if it has been completed at a prestigious higher education institution or research centre outside Spain. **The country in which the stay takes place cannot be the same as the country in which you completed the studies that gave you access to the doctoral programme (undergraduate and master's degree or equivalent), nor your country of residence.** The Management Committee of the corresponding Doctoral School may authorise stays in the country where the student obtained the entrance qualification for the doctoral programme, provided that the excellence of the institution is properly documented and justified, and that a stay in that country is more suitable than other possible stays (agreement of 26 November 2015 of the Advisory Council for Doctoral Schools [CAED]).

You can start your stay **once you have been admitted** to the doctoral programme. This will be reflected in the doctoral student's **ACTIVITY DOCUMENT**.

Any international mobility period that you complete during your doctoral studies (stays lasting one month or more whose main purpose is to conduct research work and/or carry out activities directly related to your doctoral thesis) must be registered as an academic activity in the doctoral student's activity document on the Academic Monitoring Portal for Doctoral Students.

Once the receiving institution sends you an invitation letter for your stay, your tutor will have to include your mobility period as a training activity (PD11).

You must then complete the required information about your stay.

The **mobility period** will last a **minimum** of 3 months. In duly justified cases, multiple stays adding up to three months or more will be accepted as long as each stay has lasted at least one month. At the end of your stay, you must request a certificate of stay from the receiving institution. This certificate must include the name of your tutor, the activities undertaken and the duration of your stay. The documents proving your stay must be added to the doctoral student's activity document on the Academic Monitoring Portal for Doctoral Students.

Later steps regarding the "International Doctorate" Mention, including its application, are part of the procedure for the submission of the doctoral thesis:
