

## **ANEXO 9 DP Cardinali Publlist últimos 5 años**

Propuesta de la Facultad de Medicina de la Universidad de Granada para el Grado de “Doctor Honoris Causa” de la Universidad de Granada del Profesor Daniel P. Cardinali de la Facultad de Ciencias Médicas de la Pontificia Universidad Católica de Buenos Aires (Argentina).

## Trabajos de Investigación en Revistas con Arbitraje Editorial

---

1. Continuous vs. discontinuous drinking of an ethanol liquid diet in peripubertal rats: Effect on 24-hour variation of lymph node and splenic mitogenic responses and lymphocyte subset populations. V. Jiménez-Ortega, M.P. Fernández-Mateos, P. Cano-Barquilla, D.P. Cardinali, A. I. Esquifino. **Alcohol** 45:183-192; 2011
2. Measurement of melatonin in body fluids: standards, protocols, and procedures. E.A. de Almeida, P. Di Mascio, T. Harumi, D.W. Spence, A. Moscovitch, R. Hardeland, D.P. Cardinali, G.M. Brown, S.R. Pandi-Perumal. **Child's Nervous System** 27(6): 879-891. 2011
3. Melatonin and the metabolic syndrome. Physiopathologic and therapeutical implications. D. P. Cardinali, P. Cano, V. Jiménez-Ortega, A. I. Esquifino. **Neuroendocrinology** 93(3):133-142, 2011
4. Cadmium-induced disruption in 24-h expression of clock and redox enzyme genes in rat medial basal hypothalamus: Prevention by melatonin. V. Jiménez-Ortega, P. Cano-Barquilla, P. A. Scacchi, D. P. Cardinali, A. I. Esquifino. **Frontiers in Neurology (Sleep and Chronobiology)** 2011 Mar 16;2: art13, 1-9
5. Non-motor symptoms groups in Parkinson's disease patients. Results of a pilot, exploratory study. S. Perez Lloret, M. Rossi, M. Merello, O. Rascol, D. P. Cardinali. **Parkinson's Disease**, Vol 2011, Article ID 473579, 5 pages, 2011, doi:10.4061/2011/473579
6. Higher autonomic activation predicts better performance at Iowa Gambling Task. L J. Drucaroff, R. Kievit, S.M. Guinjoan, E. Roldán Gerschovich, R. Leiguarda, D.P. Cardinali, D.E. Vigo. **Cognitive and Behavioral Neurology**, 24(2); 93-98; 2011
7. Sleep habits, alertness, cortisol levels, and cardiac autonomic activity in short distance bus drivers. Differences between morning and afternoon shifts. J. J. Diez, D.E. Vigo, S. Pérez Lloret, S. Rigtters, N. Rolé, D.P. Cardinali, D. Pérez Chada. **Journal of Occupational and Environmental Medicine**, 36(7); 806-811; 2011
8. Cardiac autonomic activity predicts dominance in verbal over spatial reasoning tasks: results from a preliminary study. J. I. Solernó, D. Pérez Chada, S. M. Guinjoan, S. Pérez Lloret, A. Hedderwick, M. F. Vidal, D. P. Cardinali, D. E. Vigo. **Autonomic Neuroscience: Basic and Clinical**, 167(1-2):78-80, 2012
9. Discontinuous vs. continuous drinking of ethanol in peripubertal rats: effect on 24-hour pattern of hypothalamic-pituitary axis activity and anterior pituitary oxidative stress. P. Fernández-Mateos, V. Jiménez-Ortega, P. Cano Barquilla, D.P. Cardinali, A.I. Esquifino. **Neuroendocrinology** 96(3):194-203; 2012. doi: 10.1159/000334963.
10. Pregabalin beneficial effects on sleep quality or health-related quality of life are poorly correlated with reduction on pain intensity after an 8-week treatment course. S. Perez-Lloret, G.M. Rojas, M.C. Menoni, G. Ruiz, C. Velásquez, H. Rodriguez, M.V. Rey, D.P. Cardinali for the PGB Study Team. **Clinical Neuropharmacology**, 35(1):21-24, 2012.
11. Melatonin supplementation decreases prolactin synthesis and release in rat adenohypophysis. Correlation with anterior pituitary redox state and circadian clock mechanisms. V. Jiménez-Ortega, P. Cano Barquilla, E.S. Pagano, P. Fernández-Mateos, A.I. Esquifino, D.P. Cardinali. **Chronobiology International** 29(8):1021-1035. 2012
12. Therapeutic application of melatonin in mild cognitive impairment. D.P. Cardinali, D.E. Vigo, N. Olivar, M.F. Vidal, A.M. Furio, L.I. Brusco. **American Journal of Neurodegenerative Disease** 1(3):280-291; 2012

13. Cadmium as an endocrine disruptor. Correlation with anterior pituitary redox and circadian clock mechanisms and prevention by melatonin. V. Jiménez-Ortega, P. Cano Barquilla, P. Fernández-Mateos, D.P. Cardinali, A.I. Esquifino. **Free Radical Biology & Medicine** 53:2287–2297; 2012
14. Melatonin may curtail the metabolic syndrome: studies on initial and fully established fructose-induced metabolic syndrome in rats. D. P. Cardinali, P.A. Scacchi Bernasconi, R. Reynoso, C.F. Reyes Toso, P. Scacchi. **International Journal of Molecular Sciences**, 14, 2502-2514; 2013.
15. A multi-step pathway connecting short sleep duration to daytime somnolence, reduced attention and poor academic performance. An exploratory cross-sectional study in teenagers. S. Pérez Lloret, A.J. Videla, A. Richaudeau, D.E. Vigo, M. Rossi, D.P. Cardinali, D. Pérez-Chada. **Journal of Clinical Sleep Medicine**, 9(5):469-473; 2013
16. Sleep and quality of life in urban poverty: the impact of a slum-housing upgrading program. Simonelli G, Leanza Y, Boilard A, Hyland M, Augustinavicius J, Cardinali D:P, Vallières A, Pérez-Chada D, Vigo DE. **Sleep**, 2013;36(11):1669-76.
17. Melatonin and diet-induced metabolic syndrome in rats. Impact on the hypophysial-testicular axis. P. A. Scacchi Bernasconi, N. P. Cardoso, R. Reynoso, P. Scacchi, D. P. Cardinali. **Hormone Molecular Biology and Clinical Investigation**, 16 (2) 1010-111, 2013
18. *Per3* length polymorphism in patients with type 2 diabetes mellitus. R. Karthikeyan, G. Marimuthu, M. Sooriyakumar, A. S. BaHammam, D. W. Spence, S. R. Pandi-Perumal, G. M. Brown, D. P. Cardinali. **Hormone Molecular Biology and Clinical Investigation**, 18 (3) 145-149, 2014.
19. Sleep habits, daytime sleepiness and working conditions in short-distance bus drivers. J. J. Díez, D. E. Vigo, D. P. Cardinali, D. Pérez Chada. **International Journal of Workplace Health Management** 7 (4): 202-212; 2014
20. Melatonin normalizes clinical and biochemical parameters of mild inflammation in diet-induced metabolic syndrome in rats. P. Cano-Barquilla, E. S. Pagano, V. Jiménez-Ortega, P. Fernández-Mateos, A. I. Esquifino, D. P. Cardinali. **Journal of Pineal Research**, 57:280–290, 2014
21. Effects of different “relaxing” music styles on the autonomic nervous system. S. Pérez-Lloret, J. Díez, M. N. Domé, A. AlvarezDelvenne, N. Braidot, D. P. Cardinali, D. E. Vigo. **Noise & Health**, 16:279-284; 2014.
22. School characteristics, child work, and other daily activities as sleep deficit predictors in adolescents from households with unsatisfied basic needs. D.E. Vigo, G. Simonelli, I. Tuñón, D. Pérez Chada, D.P. Cardinali, D. Golombek. **Mind, Brain, and Education**, 2014, 8 (4), 175-181.
23. Association of *Per3* length polymorphism with bipolar I disorder and schizophrenia. R. Karthikeyan, G. Marimuthu, C. Ramasubramanian, G. Arunachal, A. S. BaHammam, D. W. Spence, D.P. Cardinali, G.M. Brown, S.R. Pandi-Perumal. **Neuropsychiatric Disease and Treatment**, 2014, 10: 2025-2330.
24. Assessment of arterial stiffness by 24-hour ambulatory blood pressure monitoring in nocturnal hypertensive or normotensive subjects. L. Drucaroff, A. Ramirez, A. Sanchez, DP Cardinali, S. Perez-Lloret. **Integrative Medicine International** 2014, 1:130–135
25. Melatonin counteracts changes in hypothalamic gene expression of signals regulating feeding behavior in high-fat fed rats. M.J. Ríos-Lugo, V. Jiménez-Ortega, P. Cano-Barquilla, P. Fernández Mateos, E. J. Spinedi, D. P. Cardinali, A. I. Esquifino. **Hormone Molecular Biology and Clinical Investigation** 2015 21(3):175-183
26. Sleep and neighborhood safety in a Latin American Country. G. Simonelli, S.R. Patel, S. Rodríguez-Espínola, D. Pérez-Chada, A. Salvia, D.P. Cardinali, D.E. Vigo. **Sleep Health**, 1: 98–103; 2015.

## Trabajos de Revisión en Revistas con Arbitraje Editorial

---

1. Melatonin, immune function and cancer. V. Srinivasan, S. R. Pandi-Perumal, A. Brzezinski, K. P. Bhatnagar, D. P. Cardinali. **Recent Patents on Endocrine, Metabolic & Immune Drug Discovery** 5 (2), 109-123, 2011
2. Melatonin and its agonist ramelteon in Alzheimer's disease: possible therapeutic value. V. Srinivasan, C. Kaur, S. R. Pandi-Perumal, G. M. Brown, D. P. Cardinali. **International Journal of Alzheimer's Disease**, vol. 2011, Article ID 741974, 15 pages, 2011. doi:10.4061/2011/741974.
3. The use of chronobiotics in the resynchronization of the sleep/wake cycle. Therapeutical application in the early phases of Alzheimer's disease. D. P. Cardinali, A. M. Furio, L. I. Brusco. **Recent Patents on Endocrine, Metabolic & Immune Drug Discovery** 5 (2), 80-90, 2011
4. Melatonin –a pleiotropic, orchestrating regulator molecule. R. Hardeland, D. P. Cardinali, V. Srinivasan, D. W. Spence, G. M. Brown, S. R. Pandi-Perumal. **Progress in Neurobiology** 93, 350–384, 2011
5. Melatonin in mitochondrial dysfunction and related disorders. V. Srinivasan, D. W. Spence, S. R. Pandi-Perumal, G. M. Brown, D. P. Cardinali., **International Journal of Alzheimer's Disease** Vol. 2011, Article ID 326320, 16 pages, 2011. doi:10.4061/2011/326320
6. Therapeutic potential of melatonin and its analogs in Parkinson's disease: Focus on sleep and neuroprotection. V. Srinivasan, D.P. Cardinali, U.S. Srinivasan, C. Kaur, G.M. Brown, D.W. Spence, R. Hardeland, S.R. Pandi-Perumal. **Therapeutic Advances in Neurological Disorders** 4 (5) 297 – 317; 2011.
7. Pharmacotherapy of insomnia with ramelteon: safety, efficacy and clinical applications. S.R. Pandi-Perumal, D.W. Spence, J.C. Verster, V. Srinivasan, G.M. Brown, D.P. Cardinali, R. Hardeland. **Journal of Central Nervous System Disease** 3: 51–65, 2011
8. Melatonin agonists for treatment of sleep and depressive disorders. V. Srinivasan, D.P. Cardinali, S.R. Pandi-Perumal, G. M. Brown. **Journal of Experimental and Integrative Medicine**; 1(3):149-158;2011
9. Melatonin in Chagas' disease. Possible therapeutic value. D. P. Cardinali, C. B. Álvarez. **Medicina (Buenos Aires)** 71(5):477-483; 2011
10. Melatonin and its analogs in insomnia and depression. D. P. Cardinali, V. Srinivasan, A. Brzezinski, G. M. Brown. **Journal of Pineal Research** 52(4):365-375, 2012
11. Melatonin agonists in primary insomnia and depression-associated insomnia: Are they superior to sedative-hypnotics? V. Srinivasan, A. Brzezinski, S. R. Pandi-Perumal, D. W. Spence, D. P. Cardinali, Gregory M. Brown. **Progress in Neuro-Psychopharmacology & Biological Psychiatry** 35 (2011) 913–923
12. Sleep and circadian dysregulation in depressive illness. Pharmacological implications. D.P. Cardinali, S.R. Pandi-Perumal, G.M. Brown. **Clinical Neuropsychiatry**, 8 (6) 321-338, 2011.
13. Sleep and the immune system. D.P. Cardinali, A.I. Esquifino. **Current Immunology Reviews**, 8: 50-62; 2012
14. Disrupted chronobiology of sleep and cytoprotection in obesity: possible therapeutic value of melatonin. D.P. Cardinali, E.S. Pagano, P.A. Scacchi Bernasconi, R. Reynoso, P. Scacchi. **Neuroendocrinology Letters** 32(5):588–606, 2011.

15. Melatonin and mitochondrial dysfunction in the central nervous system. D.P. Cardinali, E.S. Pagano, P.A. ScacchiBernasconi, R. Reynoso, P. Scacchi. **Hormones and Behavior** DOI: 10.1016/j.yhbeh.2012.02.020. 63(2):322-330; 2013
16. Melatonin antioxidative defense: therapeutical implications for aging and neurodegenerative processes. S.R. Pandi-Perumal, A. S. BaHammam, G.M. Brown, D.W. Spence, V.K. Bharti, C. Kaur, R. Hardeland, D.P. Cardinali. **Neurotoxicity Research**, Early Online (2012) DOI: 10.1007/s12640-012-9337-4 Neurotox Res. 2013 Apr;23(3):267-300.
17. New developments in the treatment of primary insomnia in elderly patients - Focus on prolonged release melatonin. D.P. Cardinali, M.F. Vidal, D.E. Vigo. **ChronoPhysiology and Therapy**, 2: 67–79; 2012
18. Agomelatine: Its role in the management of major depressive disorder. D. P. Cardinali, M. F. Vidal, D. E. Vigo. **Clinical Medicine Insights: Psychiatry** 2012;4 1–23, doi: 10.4137/CMPsy.S7989
19. Sleep and circadian rhythm dysregulation in schizophrenia. J. M. Monti, A. S. BaHammam, S. R. Pandi-Perumal, V. Bromundt, D. W. Spence, D. P. Cardinali, G. M. Brown. **Progress in Neuro-Psychopharmacology & Biological Psychiatry** 43:209–216;2013.
20. Ghrelin and its interactions with growth hormone, leptin and orexins: Implications for the sleepwake cycle and metabolism. F. García-García, E. Juárez-Aguilar. J. Santiago-García. D. P. Cardinali. **Sleep Medicine Reviews**, 2014 18(1):89-97
21. Melatonin therapy in patients with Alzheimer's disease. D. P. Cardinali, D. E. Vigo, N. Olivar, M. F. Vidal, L. I. Brusco. **Antioxidants** 3, 245-277; 2014; doi:10.3390/antiox3020245
22. Should we listen to our clock to prevent type 2 diabetes mellitus? R. Karthikeyan, G. Marimuthu, D. W. Spence, S. R. Pandi-Perumal, A. S. BaHammam, G. M. Brown, D. P. Cardinali. **Diabetes Research and Clinical Practice**, 2014 106(2):182-90. <http://dx.doi.org/10.1016/j.diabres.2014.07.029>
23. A time to learn, a time to teach. D. Golombek, D.P. Cardinali, **Mind, Brain, and Education**, 2014, 8 (4) 159-160.
24. Melatonin and brain inflammaging. R. Hardeland, D.P. Cardinali, G.M. Brown, S.R. Pandi-Perumal. **Progress in Neurobiology** 127–128 (2015) 46–63.
25. Some implications of melatonin use in chronopharmacology of insomnia. D.A. Golombek, S.R. Pandi-Perumal, G.M. Brown, D.P. Cardinali. **European Journal of Pharmacology**, 762 (2015) 42–48
26. Melatonina y consumo de benzodiacepinas: Un ejemplo de medicina traslacional. Cardinali D.P., Vigo D.E. **La Prensa Médica Argentina** 101, 278-282, 2015
27. A diez años de la primera encuesta sobre prevalencia de alteraciones del sueño en poblaciones urbanas de América Latina: ¿Cómo dormimos los argentinos?. Vigo, D.E., Cardinali D.P. **La Prensa Médica Argentina** 101, 266-277, 2015
28. Estudios básicos y clínicos sobre la melatonina como ejemplo de medicina traslacional. Cardinali D.P. **Ciencia e Investigación Reseñas**, 3, 22-35, 2015 ISSN 2314-3134
29. Assessing the efficacy of melatonin to curtail benzodiazepine/ Z drug abuse. DP Cardinali, DA Golombek, RE Rosenstein, LI Brusco, DE Vigo. **Pharmacological Research**, en prensa

## Libros y Volúmenes Especiales Editados

---

1. **Qué es el Sueño.** D. P. Cardinali, ISBN 9789501201451. Editorial Paidós, Buenos Aires, 2014.
2. **Cincuenta Años con la Piedra de la Locura. Apuntes Autobiográficos de un Científico Argentino.** D. P. Cardinali. ISBN 978-987-28123-5-5, Asociación Argentina para el Progreso de las Ciencias, Buenos Aires, 2015.
- 3.

## Capítulos en Libros

---

1. Capítulo 25. Sueño e Inmunología. D.P. Cardinali. En: **Neuroinmunología Clínica**, Editores: J. Correale, A.M. Villa, O. Garcea, Editorial Médica Panamericana, Buenos Aires, 2011 ISBN 978 959 06 0156 6, pp. 403-420
2. Chapter 9. Melatonin, sleep, and immunomodulation: role in health and disease. D. P. Cardinali. In: **Melatonin in the Promotion of Health**, 2nd Edition, Ed. RR Watson, CRC Press Taylor & Francis Group, Boca Raton, FL, ISBN-13: 978-1-4398-3980-5, pp 167-186, 2012.
3. Chapter 25. Melatonin and treatment of disorders related to Jet lag and shift work. G M Brown, S.R. Pandi- Perumal, I. Trakht, D. W. Spence, D. P. Cardinali, A. Samel. In: **Melatonin in the Promotion of Health**, 2nd Edition, Ed. RR Watson, CRC Press Taylor & Francis Group, Boca Raton, FL, ISBN-13: 978-1-4398-3980-5, pp 379-403, 2012.
4. Chapter XII, Possible therapeutic value of melatonin in Alzheimer's disease. D.P. Cardinali, A.M. Furio, P.A. Scacchi Bernasconi, L.I. Brusco. In: **The Pineal Gland and Melatonin. Recent Advances in Development, Imaging, Disease and Treatment**, Ed. M. Turgut. R. Kumar. Nova Science Publishers Inc., New York, ISBN 978-1-60876-717-5, pp.167-187, 2011.
5. Sleep disordered breathing in teenagers. D. Pérez-Chada, D.P. Cardinali. **Encyclopedia of Sleep and Dreams: The Evolution, Function, Nature, and Mysteries of Slumber**. Ed. Patrick McNamara, Deirdre Barrett. Santa Barbara, CA: Greenwood, 2012. ABC-CLIO eBookCollection. ISBN-10: 031338665X. PP 642-645
6. Chapter 6. Melatonin and the metabolic syndrome. E. S. Pagano, P. A. Scacchi Bernasconi, R. Reynoso, P. Scacchi, D. P. Cardinali. En: **New Developments in Melatonin Research**. Editors: D. Acuña-Castroviejo, I. Rusanova, G. Escames. 2013, PP 101-119, Nova Science Publishers, Inc. N York, ISBN: 978-1-62618-843-3
7. Chapter VIII. Superior cervical ganglionectomy in rodents. H. E. Romeo, L. E. Savastano, D. P. Cardinali. En: **Step by Step Experimental Pinealectomy Techniques in Animals for Researchers**. Editor: M. Turgut, 2013, PP. 153-170, Nova Science Publishers, Inc. N York, ISBN: 978-1-62808-158-9
8. Sleep, slums and shelter: impact of a slum-housing upgrading program. D.P. Cardinali, G. Simonelli, S. Rodríguez Espínola, A. Salvia, D. Pérez-Chada, D. Vigo. En: A. M. Battro, I. Potrykus, M. Sánchez-Sorondo (Eds.), **Bread and Brain, Education and Poverty**. Pontifical Academy of Sciences, Scripta Varia 125, Vatican City 2014.  
[www.pas.va/content/dam/accademia/pdf/sv125/sv125-cardinali.pdf](http://www.pas.va/content/dam/accademia/pdf/sv125/sv125-cardinali.pdf)

9. Chapter 11. Therapeutical implications of melatonin in Alzheimer's and Parkinson's diseases. D. P. Cardinali, D. E. Vigo, N. Olivar, M. F. Vidal, L. I. Brusco. En: A.Engin, A. BasakEngin (Eds) **Tryptophan Metabolism: Implications for Biological Processes, Health and Disease**, Humana Press, Springer, New York, 2015 ISBN 978-3-319-15630-9, pp. 197-238
10. Capítulo 11. El sistema endocrino y el sueño. D. P. Cardinali. En: SES Sociedad Española del Sueño (Ed.), **Tratado de Medicina del Sueño** ISBN 9788498358636, 2015. Editorial Médica Panamericana, Madrid, 2015, pp.162-168
11. Cronobiología en Endocrinología. DP Cardinali. En: **Fisiopatología Molecular y Clínica Endocrinológica**, ed. RS Calandra, MB Barontini, Eli Lilly Interamericana Sucursal Argentina, Buenos Aires, 2015, pp.287-310. ISBN 978-987-45792-0-1
12. Uso de la melatonina en la medicina del sueño. D.P. Cardinali. En: **Trastornos Respiratorios del Sueño y Ventilación Mecánica no Invasiva** C M. Franceschini, CA Rabec,ed, Ediciones Journal, Buenos Aires, 2016, ISBN 978-987-3954-07-8, pp 158-164.
13. Somnolencia, fatiga y siniestralidad vial, J J. Diez, DP Cardinali, D Pérez-Chada. En: **Trastornos Respiratorios del Sueño y Ventilación Mecánica no Invasiva** C M. Franceschini, CA Rabec,ed, Ediciones Journal, Buenos Aires, 2016, ISBN 978-987-3954-07-8, pp 87-97
