

Welcome to the Internationalization Section of the International School for Postgraduate Studies (EIP) of the University of Granada. We strongly believe that studying or teaching abroad can be a valuable and enriching experience, and we work to provide support and guidance throughout the all process.

We support all groups within university community (students, teaching and research staff, administration and services staff) studying or conducting research at the University of Granada. We provide the information and resources needed to make the most of your stay here.

In addition, the Internationalization Section of the EIP facilitates study abroad opportunities for our university community. This section helps all groups within our university community (students, teaching and research staff, administration and services staff) find information about the right program as well as funding and scholarships.

We are committed to fostering a diverse and inclusive community at the University of Granada, and we are always happy to help navigate the challenges and opportunities that arise from studying or conducting research in a foreign country.

Using the icons above or the menu on the left, you can access information on mobility programs (Erasmus +, Erasmus +: International Dimension, Free Mobility, etc.), information for teachers (mobility agreements, joint Master's/PhD proposals or letters of pre-admission, etc.), as well as International Joint Supervision of the Doctoral Thesis or legal regulations, among others.
